### THE COLOR OF IT.

#### A NEGRO DUEL IN BALTIMORE.

Fight Between White Man and Negro in Hinton W. Va. Serious Conflict Which Followed the Death of a Negro.

Mob Driven from the Town.

GREENSBORO, W. Va., July 17.—Details of the stirring scenes through which the people of Hinton, West Virginia—a town forty miles west of this city—have passed, have been received here. For several days past the negro mob has been in the town, and the people have been in a state of alarm.

This party, commanded by C. Mayhugh, an engineer of the Chesapeake and Ohio road, famous for his daring, made a raid on the negroes and drove them out of town, several harmless shots being fired. Saturday reports were in circulation that the negroes had again made a raid on the town, and that the people were in a state of alarm.

About dark Saturday night a band of negroes, one hundred or more strong, came up from the river, commanded by a notorious leader named Captain Dick. They marched about town in regular military style, being commanded by Captain Dick in loud tones. They cursed, belled and made hideous noises like a band of devils, and vowed they would hang Peck between two crossed young gentlemen.

The miners, seventy-five strong, came up from the river, commanded by a notorious leader named Captain Dick. They marched about town in regular military style, being commanded by Captain Dick in loud tones. They cursed, belled and made hideous noises like a band of devils, and vowed they would hang Peck between two crossed young gentlemen.

BALTIMORE, July 16.—An afternoon paper published a special from a town in the States that a genuine, bona fide duel took place in Baltimore county yesterday between two colored young gentlemen, James Sampson and Wilson Myers. The difficulty originated in a love affair, both men being unmarried, and the matter was settled by a duel.

ELIZABETH, N. J., July 15.—It is doubtful if James Halpin ever leaves home hereafter without his suspenders, since he was killed by a bullet which passed through one of those useful appendages. He was proceeding home, shortly before noon, when he was shot by a man named Thomas Gaffney standing at the corner of Pearl and Bridge streets.

On the assembling of court this afternoon Dr. Chipley was recalled to explain the difference between sanity and insanity. He was frequently interrupted by the jury, who said the jury could not understand it and he did not think the parties engaged in the examination knew anything about it. The doctor continued for nearly two hours.

STOCK CITY, July 17.—Dr. W. B. Porter, of Lemars, who has been undergoing examination by the State Board of Health, was yesterday held to bail in \$5,000. The doctor was charged with the use of drugs and with the use of force in the examination of a patient.

CINCINNATI, July 17.—A dispatch from Morgan, Va., says that the house and residence were burned at that place Tuesday night. Loss not stated. The fire was caused by a lightning strike.

TRUSTEES, N. J., July 17.—The court of errors and appeals this morning announced that they would not hear the appeal of the State of New Jersey against the decision of the court of common pleas in the case of the State of New Jersey against the decision of the court of common pleas.

PITTSFIELD, Mass., July 17.—The tornado yesterday did great damage to buildings, and killed several people. The tornado was the worst in the history of the State.

## ABOUT THE BUREAU.

### THE AGRICULTURAL ONE, OF COURSE.

The Speech of Hon. James M. Smith, of Oglethorpe County, in the House of Representatives of Georgia—Why He Thinks the Bureau Should Be Abolished.

The house of representatives having under consideration the bill to abolish the agricultural bureau, Hon. James M. Smith, of Oglethorpe county, was recognized by the speaker and made the following remarks:

Mr. Speaker—I desire to say a word upon this question before it is put to the house. I am not in a condition physically to do justice to the issue I entertain with regard to it. I am feeling very unwell, and for that reason made the motion to put off this debate until another day, but it seems there is a determination on the part of the house to take it up today, and I am compelled to accept this decision. Before I proceed to state my reasons for the faith which is in me I desire to make a few remarks on the part of those who are the special and particular friends of the bureau, to force this discussion whether its opponents are ready or not; and I am compelled to accept this decision.

When I was first elected to the legislature in 1879 the question of abolishing the department of agriculture was before the house. Most of the farmers in that county took very little interest in it, and when I came here in January, 1877, it being my first session in the legislature, I was wholly unacquainted with this as with thousands of other things which were going on in the house. I was elected to the house, and I was elected to the house, and I was elected to the house.

Now, sir, I come to the two pertinent points in the discussion of this question. The first is that the bureau is not worth the people of Georgia the amount of money which is annually appropriated to it. The second is that the bureau is not worth the people of Georgia the amount of money which is annually appropriated to it.

When this session began last November the first time I had occasion to say anything about the bureau was in a speech to the agricultural committee and I said then that I was not prepared to say whether I would support the bureau or not. I have since had occasion to say whether I would support the bureau or not. I have since had occasion to say whether I would support the bureau or not.

On the assembling of court this afternoon Dr. Chipley was recalled to explain the difference between sanity and insanity. He was frequently interrupted by the jury, who said the jury could not understand it and he did not think the parties engaged in the examination knew anything about it. The doctor continued for nearly two hours.

# A THUNDER-CLAP

AMONG THE LAW MAKERS OF GEORGIA

Some Strangers Among Them in the Capital Building in Connection with the Wild Land Committee—Mr. Hinton Wright's Action in the Matter.

## NO. 27.

Yesterday morning about ten o'clock it began to be whispered about the capital that some strange developments had been made touching the wild land committee, which, it will be remembered, sat nearly all the month of June investigating the transactions of the wild land office of this State. The report of the committee was read in both branches of the legislature several days ago. It indicated that there had been great frauds in the manner of transferring wild land, in fact, in this State.

The rumor circulated about the committee yesterday morning, that sufficient developments had been made to warrant the committee to report to the following fact: Comptroller General Goldsmith preferred that there should be a somewhat closer examination of him than appeared in the body of the report. He therefore had a paper drawn up which expressed in the clearest and strongest terms his perfect innocence and entire disconnection with any irregular proceedings connected with the wild land transactions. This paper was signed last Monday by Hon. Allen D. Candler, of Hall, and Hon. John C. Maule, of Talbot. The paper, and subsequently, the committee, understood that the other three members were to sign it.

Tuesday Mr. Hinton P. Wright went to Hon. Lewis Strickland, of Clinch, and Hon. Parish Davis, of Baker, two other members of the committee, to procure their signatures to the paper. The paper, as we have said, they thought the report covered all the ground. Mr. Wright insisted on their signatures to the paper and urged them to approve it.

As they still refused, he offered Mr. Davis \$250 and a suit of clothes to put his name to the paper, and subsequently, he offered Mr. Strickland with an offer of \$100 for his signature. Both gentlemen refused the offer. Mr. Wright, when he made it, said he merely did it as a friend of Mr. Davis, who had not authorized any such proceeding. He said he was not a member of the committee, and he was not a member of the committee, and he was not a member of the committee.

Wednesday Messrs. Davis and Strickland went to Hon. A. B. Russell, chairman of the wild land committee, and offered him the same offer which had been made to them by Mr. Wright. Yesterday morning news of this proceeding reached Messrs. Candler and Maule, who immediately went and took their part in the matter. They refused to sign the paper, and the committee was going to sign. Then the rumors began to spread, and the committee was going to sign. Then the rumors began to spread, and the committee was going to sign.

Yesterday morning Mr. Russell called together the members of the committee, and they immediately went and took their part in the matter. They refused to sign the paper, and the committee was going to sign. Then the rumors began to spread, and the committee was going to sign. Then the rumors began to spread, and the committee was going to sign.
